SUMMARY

I am an aspiring web developer that recently graduated from an intensive coding bootcamp from the University of Washington. I've done just about everything from construction, mechanic work, sales, to bartending. My goal is to create exciting and intuitive applications that are relative to user needs.

EXPERIENCE

Autoworks of Issaquah, Issaquah — Technician

- Use diagnostic software to diagnose complex mechanical and electrical issues.
- Attend regular training sessions to stay up to date with new vehicle systems and tools.
- Engine and transmission repair.

AT&T, Ellensburg — Business Account Executive

- Use critical thinking skills to problem solve and troubleshoot issues with clients.
- Meet a monthly sales quota and assist associates with sales.
- Provide exceptional customer service and build value with new and existing account holders.

D&M Motors, Ellensburg — Technician

- Engine and transmission repair.
- Exhaust and custom fabrication.
- Complete vehicle overhauls.
- Diagnostics.

EDUCATION & CERTIFICATES

Full Stack Web Development Certificate, Oct 2021-April 2022

TECHNOLOGIES

Javascript ES6, React, SQL, MongoDB, Nodejs, HTML5, CSS3, NoSQL

PROJECTS

Weather Buddy - By pulling in third party data from Open Weather API. Weather Buddy users are able to search for a city and then be presented with the current weather and a 5 day forecast for that city.

Developer Schmooze - A CMS style blog application using handlebars.js and SQL. Users can create an account, publish posts, and comment on other user's posts.

HoliDaze - By accessing third party data from multiple API's. HoliDaze users can set filters and search for virtually any holiday and be dynamically presented with information pertaining to that specific holiday.

TutorTea - A coding tutor rating and availability application.
